

Beira Corridor Stakeholder Forum

The preferred route for refined products in Southern Africa

Join us for an engaging forum hosted by **Companhia do Pipeline Moçambique-Zimbabwe Limitada (CPMZ)**, where we'll dive into the latest developments and planned investments in the Beira corridor.

The Beira Corridor is a key transportation route in Southern Africa that connects the port of Beira in Mozambique to neighboring landlocked countries, playing a crucial role in regional trade and economic development.

The Beira-Harare pipeline, jointly owned and operated by CPMZ and its Zimbabwean partner, the National Oil Infrastructure Company of Zimbabwe (NOIC), runs through the Beira Corridor and is the most efficient route for moving refined products from the global market to Zimbabwe and other regional markets, notably Botswana, the Democratic Republic of the Congo, Malawi, and Zambia.

This is your chance to connect with CPMZ board members, management and fellow stakeholders in the Beira corridor as we explore the future of this vital supply route. We can't wait to share our vision and collaborate with you. The agenda is included on the next page.

Workshop date:

Tuesday June 10th 2025

Time:

9:00 am – 2:00 pm

Venue:

Sofitel Dubai – The Obelisk,
Dubai, UAE

Agenda:

See next page

Confirmation:

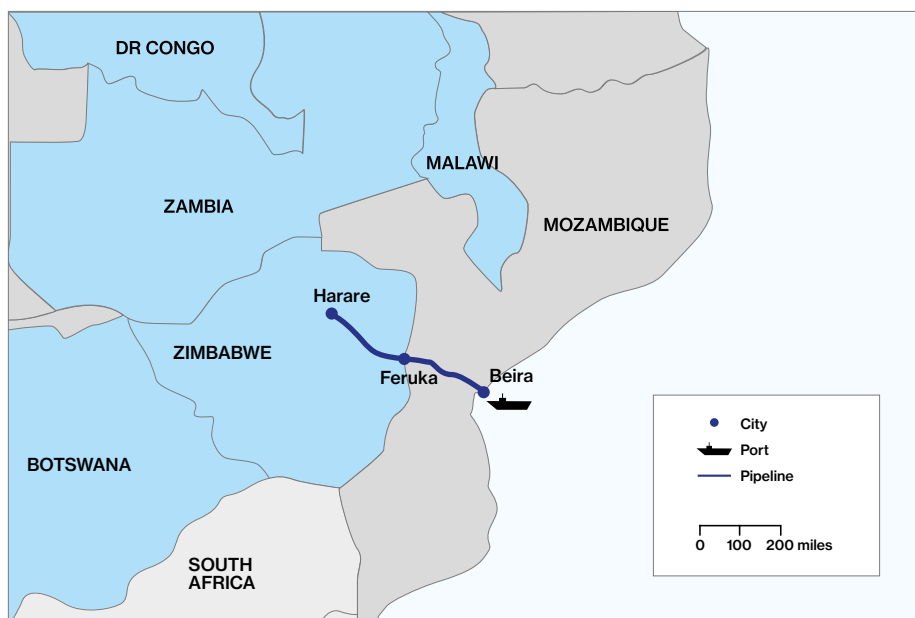

Please confirm your attendance
before 30th May via email to
claudio.mussa@cpmz.co.mz

Recent investments have expanded the pipeline's capacity, positioning it to better serve a region that is experiencing strong demand growth for refined products.

During this workshop, we will discuss:

1. CPMZ's vision and strategy for the Beira-Harare pipeline and the Beira corridor.
2. Recent and planned investments in the Beira corridor infrastructure.
3. The Beira corridor masterplan.

This forum will also be an opportunity to meet privately with CPMZ's Board Members and senior management, and network with fellow stakeholders in the Beira corridor.

Companhia do Pipeline Moçambique-Zimbabwe Limitada (CPMZ) was established in 1981 as a private company jointly owned by the private sector and the Government of Mozambique. CPMZ owns and operates the Beira-Feruka pipeline and is responsible for pumping oil products on behalf of NOIC from Beira to Feruka.
